Wegienka Elementary School students usually participate in several projects, such as candygrams, raising money for high school scholarships, reading to younger students, and helping out around the school, but the COVID pandemic cancelled those plans this school year.

However, the Student Council at the Brownstown Twp. school was able to organize a food drive to benefit Gleaners Food Bank. The students came up with a competition between the grade levels. The winning class received an extra recess and an ice cream treat.

The food was counted each week and an update was given to the students to keep them motivated. The fourth/fifth-grade team won by collecting 424 items.

In all, two pallets of food were packed and delivered to Gleaners Food Bank.
