

Welcome

Dear Parents,

Let me take this opportunity to introduce myself. My name is Matthew Czajkowski and I am the proud principal of Maple Grove Alternative High School. I spent 10 years teaching in this district before spending nine years as the principal at Erving Elementary School and the last six years as the principal at Woodhaven High School.

Matthew Czajkowski
Principal

During these 24 years I have seen many changes occur in public education. This is a very challenging time for all schools in the state of Michigan and I am proud that the Woodhaven-Brownstown School District had the desire to open an alternative high school such as Maple Grove. Our new alternative high school allows students to learn at their own pace by completing their online courses from the comfort of their own home. While most traditional high schools require students to earn 28-30 credits to graduate, in order to earn a diploma from MGAHS a student must complete only 18 credits in all of the areas required by the State of Michigan.

Students in this online program do have the opportunity to sign up for Vocational/Career Technical Education classes and attend those while working on their required 18 credits at home. Knowing that the traditional brick and mortar school does not work for all students, we hope that the flexibility provided by Maple Grove Alternative High School allows students in our area to find a means to graduate with a high school diploma and move on to the next phase of their lives. You can visit our website or call me at 734-789-2066 for more information.

Welcome

Maple Grove is a free alternative high school, within the Woodhaven-Brownstown School District, that is designed to get many types of students through to graduation.

We offer online courses that allow students to work at their own pace from home.

Although we are located in Woodhaven, students from any city may attend Maple Grove Alternative High School.

Woodhaven-
Brownstown
School District

About our Students:

Our students have varied backgrounds that have brought them to MGAHS. Many struggled with the social aspect of traditional high school, or found themselves behind in credits due to health or family concerns.

Who Fits the Best at MGAHS?

A student that doesn't quite fit the traditional school setting.

A student who is behind in credits.

A student who is self disciplined and can work independently.

A student who would like to finish high school and graduate with a diploma.

Why MGAHS might be the answer?

A student can work from home during the time that works best for them.

Requirements for Attending MGAHS:

Students must be less than 20 years of age on September 1, of the school year.

Students come in to the learning lab, located at Woodhaven High School, once a week to take tests, get help, or check in with their mentor teacher.

Maple Grove Graduation Requirements:

The graduation requirements for MGAHS are reduced from the typical high school requirement, down to 18 credits that the Michigan Merit Curriculum requires.

This is done by eliminating most elective classes. Students who complete the coursework will receive a diploma from Maple Grove Alternative High School.

Why Maple Grove is Unique:

Maple Grove Alternative High School is free!

Maple Grove Alternative High school students are able to control their own progress. They will take one course at a time, which requires approximately 30-40 hours of online work to complete.

Students are able to take advanced placement courses that grant college credit.

Students may be able to pursue vocational training through the Downriver Career Technical Consortium while enrolled at MGAHS.

Students will have a teacher mentor to monitor their progress and will only need to come into the school to take tests and exams.

One-on-one tutoring is available in person any time during the school day for students.

Students are given a laptop and internet access for home use if needed.
